

Interactive Experiment: Understanding Germ Transfer

Worksheet 2

Germs can spread very fast if you don't cover your mouth when you cough or sneeze. Covering your mouth with your hand is a good way to help prevent germs from spreading, but using a tissue or the inside of your elbow helps keep germs off of your hands and face.

How to Cover Your Mouth Properly:

covering mouth with hands

covering mouth with tissue

covering mouth with elbow

REMEMBER! Always wash your hands after you cough, sneeze, or blow your nose so you don't spread germs!
