### HEALTHY SKIN

Healthy, well conditioned skin retains more moisture and is less likely to absorb and react to incidental exposure to irritants.

### DAMAGED SKIN

Tiny cracks in the surface of damaged skin permit natural oils and moisture to escape and allow outside substances to irritate and potentially enter the bloodstream.

### CONDITIONING HANDS

Routine conditioning helps maintain healthy skin and makes removal of contaminants quicker and easier.

### INDUSTRIAL WORKPLACE SOLUTION

GOJO HAND MEDIC Professional Skin Conditioner is part of a comprehensive four-point solution for a clean and healthy workplace. **Speak to your GOJO representative for more information.**
